

Tools and Exercises to assist us to acknowledge the privileges we enjoy and to use them wisely

Exercise 3 Professional Privilege

We must use our privileges to help others, not to abuse them.

In small groups make a list of the following:

1. What privileges do you have as either a Refugee Leader, an NGO, a UN agency, a Donor or an Academic?
2. Identify how these relate to the ability to participate.
3. Identify how we can use these privileges to increase opportunities for others to participate.

Share this with the larger group to prepare a combined list.
