NOTES	This is intended as a guide only. Courses do not need to be studied in the exact structure that they appear here.
	See Program Structure on page 1 for a guide on the terminology and colour codes used in this progression plan.
	Note 1: Prescribed Electives: See the Quantitative Data Science Handbook page for the full list of prescribed elective options.
	Enrolment in COMP1511 is highly competitive with very limited positions. If you can't secure a position in Term 1, you should enrol in the course in Term 2 or Term 3. Completing COMP1511 in either term should not result in any delay in your progression.
