

# UNSW IT – Install Guide for Windows NVivo 12

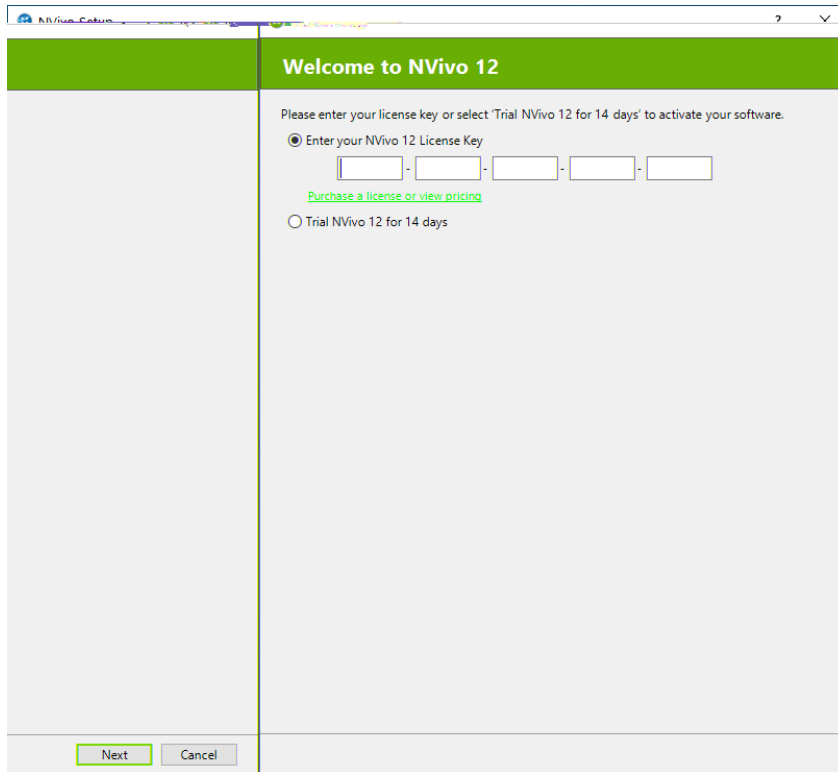

1. Launch the installer file you have downloaded from the UNSW IT Website, you may be required to install supporting addons such as 'Microsoft SQL Server 2014 Express Local DB'.

2. Follow the prompts for installation, you will be asked to agree to NVivo's 'End User License Agreement' and specify your desired location of installation. You will also be prompted to install additional add-ons.

3. Enter the serial key provided on the UNSW IT Website.

4. Register your name, email and country of residence when prompted.

5. Installation is now complete.
