

THE SYDNEY NEWS

To me has fallen the task of conveying a message of greeting to Diploma and Certificate Students, both old and new, from the Sydney Technical College Union.

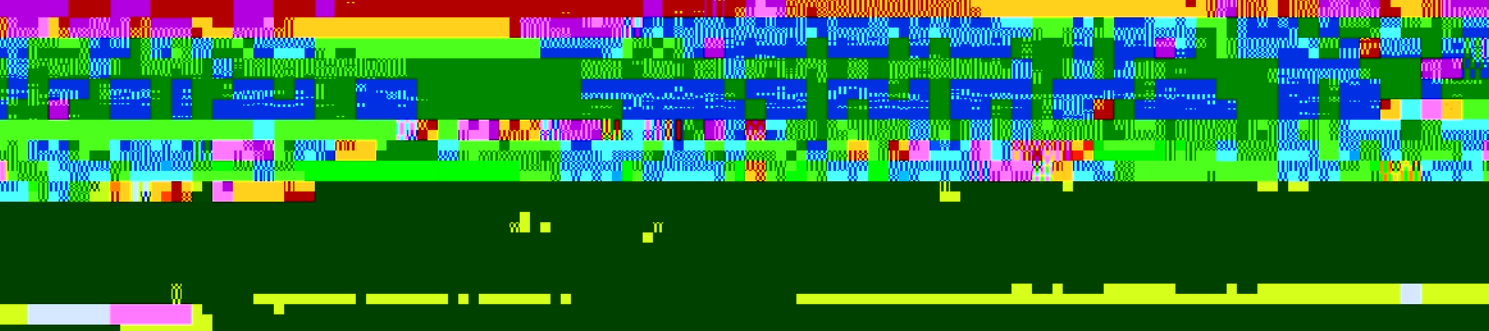

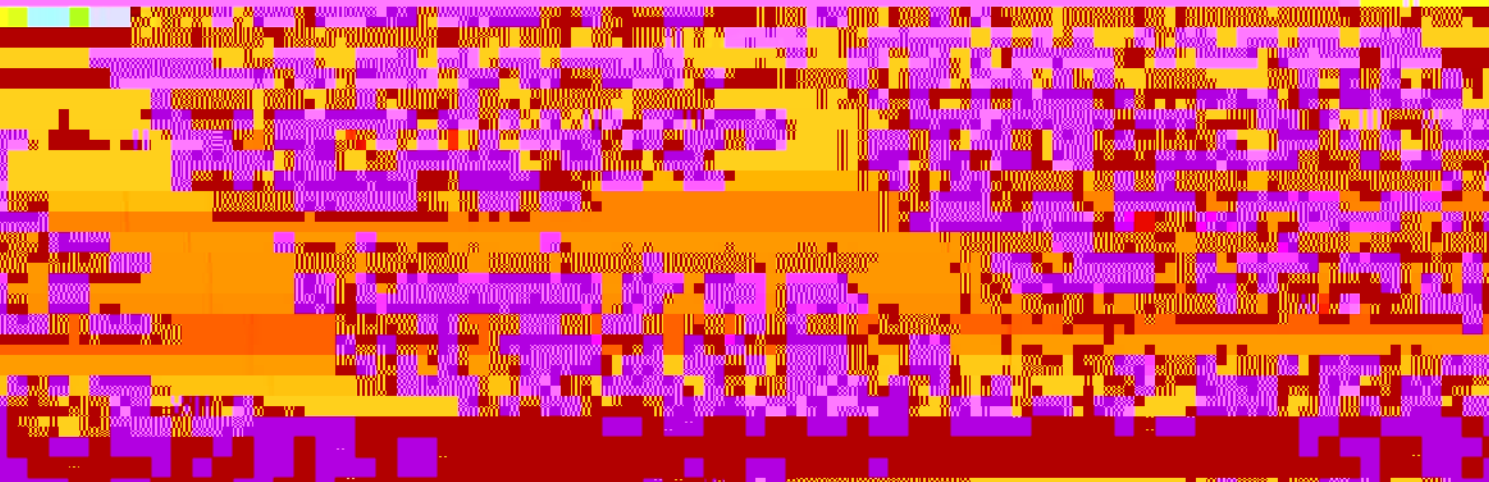

...nopes' all had a good holiday after the last academic year. ...the State Benef. to ...bring up in your Departmental Association ...

...their op- from this you will see why it is the Council notified ...ally or by imperative for every person at inions, either pers ...for the Union Tech. what a student, lecturer letter, to Unity Na ...its should also ... Secretary ...

...are College wide. After some years both members and non-members, but ...under the system, the separate ...minimum profit basis by your Union ...

The first part of the report deals with the general situation of the country and the progress of the work during the year. It is followed by a detailed account of the various projects and the results obtained. The report concludes with a summary of the work done and a list of the publications issued during the year.

The work of the year has been very successful and has resulted in a number of important discoveries. The most important of these are the discovery of the new element, the discovery of the structure of the atom, and the discovery of the laws of heredity.

The work of the year has also resulted in a number of important publications. The most important of these are the book on the structure of the atom, the book on the laws of heredity, and the book on the new element.

The work of the year has been very successful and has resulted in a number of important discoveries. The most important of these are the discovery of the new element, the discovery of the structure of the atom, and the discovery of the laws of heredity.

to all about

A Y C - What is it all about

When people are asked to give their views on the A. Y. C. they are often surprised to find that they have many different opinions. Some think it is a waste of time, while others think it is a very important part of their lives. The A. Y. C. is a group of people who are interested in the same things and who want to help each other. They meet regularly and discuss their problems and ideas. This helps them to learn from each other and to grow as individuals. The A. Y. C. is not just a group of people, it is a way of life. It is a way of living that is based on love, respect, and understanding. It is a way of life that is open to all people, regardless of their race, religion, or social class. The A. Y. C. is a place where people can find support and encouragement when they are in need. It is a place where people can learn and grow together. The A. Y. C. is a very important part of our lives and we should all be proud to be a part of it.

While it is true that the A. Y. C. is not perfect, it is a very good thing. It is a place where people can find support and encouragement when they are in need. It is a place where people can learn and grow together. The A. Y. C. is a very important part of our lives and we should all be proud to be a part of it. The A. Y. C. is a place where people can find support and encouragement when they are in need. It is a place where people can learn and grow together. The A. Y.
