

Safety Alert

April 2021

Plant Safety

Plant Safety Reminder on 8/18/2021 (1 hT-8a28 126r&4 ET2Tj EMC /F) after being accidentally run down by an excavator. The contractor was extremely lucky sustaining tissue injuries to his ankles. This is a reminder to all contractors on campus working around a plant.

Call for all Contractors:

- x Ensure you are familiar with the SafeWork NSW Code of Practice Managing the Risk of Plant in the Workplace (August 2019) [Code of practice – Managing the risks of plant in the workplace \(nsw.gov.au\)](https://www.nsw.gov.au/code-of-practice-managing-the-risks-of-plant-in-the-workplace)
- x Ensure that a High-Risk SWMS has been developed and communicated to all workers working on, near or around moving plant.
- x Ensure daily prestart conducted warning of the dangers of working around moving plant.
- x Ensure exclusion zones established around plant operations.
- x Ensure that clear communication and visual eye contact is maintained with plant operator.
- x
