1.	Search for Materials	2
2.		

3. Edit Material – General Information

Fill in details of the material in each tab as much as possible:

- SDS: Add attachment of Safety Data Sheet (SDS).
- Identifiers:
 - Material Type: Biological, Mixture, Pure chemical
 - Material Class: Chemical, Chemical do not create ontainer, Lab supplies
 - Structure Identifiers: CAS number or MDL number
- Physical Properties:
 - Formula
 - Physical State
 - Molecular Weight
 - Purity: concentration of material
 - Density (Kg/L)
