PEP3 (Clinical) follows from earlier PEP courses and provides ongoing training as part of the

practical component of the clinical program. In PEP3 candidates are required to attend clinical workshops, complete a supervised placement in the UNSW Psychology Clinic, and attend weekly PEP and Neuro/Psychometric meetings. The placement in the UNSW Psychology Clinic covers assessment and therapy-based work with child and adult clients supervised by senior Clinical Psychologists and Clinical Neuropsychologists. Candidates are expected to undertake at least 167 hours of clinical placement, which includes client work, supervision, placement administrative responsibilities and client preparations. Placement hours typically extend beyond the standard term period. Additional hours may also be required to demonstrate sufficient clinical competencies. This is a Workplace Integrated Learning (WIL)

CLO10: Demonstrate professionalism and accountability in all areas of professional activities including concern for welfare of others, responsiveness y

Following on from PEP1 and 2, the clinical workshops and clinical supervision in this course will provide further practical training in clinical skills of assessment, case formulation and treatment.

Trainees should regularly review their client session recordings and select at least 3 recordings (minimum of one recording each month) to be submitted to relevant Clinic Supervisors for comments and feedback. These submissions should include a brief description of the session content and also self-reflections including aspects of the session that the trainee performed well and the aspects that require further improvement. This process helps trainees to develop and refine their self-reflective competencies in clinical practice.

Objectives

Throughout the program, trainees should be keeping a professional log of all relevant practical work completed. The Professional Practice Logbook entries for the UNSW Psychology Clinic placement are recorded in the UNSW [InPlace](#) system. Each entry of the logbook must be signed by your placement Supervisor as endorsement of the activities completed. The Professional Practice Logbook entries for the external field placement is in a digital excel version and can be found on the clinic Teams site. Each page of the logbook must be signed by your placement Supervisor as endorsement of the activities completed. Please discuss with your supervisors the frequency of which they would like these logs to be reviewed and signed (no less frequently than once a fortnight).

Beliefs

Your logbook records should include all practical clinical work, attendance at special workshops, weekly professional practice meetings, intake duty, liaison with other professionals associated with casework, and individual/group supervision sessions. It is your responsibility to keep track of the number of hours of practical work you have done and to be able to establish the validity of your entries. In addition to being a necessary part of your assessment, you will find your personal log of professional activities and experience extremely helpful when compiling job applications in the future.

7.1 Professional Placement

Trainees are required to submit a copy of the Mid-Placement Trainee Self-Evaluation Form to their supervisors ~~as a Q&A week prior to the~~ Mid Placement Review meeting. Trainees are also required to submit

e t e s s i e e n

You are required to submit, where relevant, copies of your Supervision Contract, Mid and End Placement Review Reports (for both adult and child work) and Trainee Self-Assessments through the UNSW InPlace system. You will also need to log all your placement activities in InPlace and forward these entries to

Not Applicable

Niel o s s i e P r t i n i e U W I S I s i i l o C P t e n
e t s s i e e n

You will need to demonstrate satisfactory professional and ethical practice on placement in the UNSW Psychology Clinic, including timely completion of all client work, attendance at scheduled supervision and intake sessions, attendance at professional meetings and completion of all intake and administrative duties to a satisfactory level. See the Professional Practice Guidelines document for further information. Your clinical and professional competencies will be formally assessed by your supervisors at mid and end placement review periods using standardised Clinical Psychology competency assessment rating tools.

re t e s o

 e t e s s i e e n

You will be required to submit one de-identified case report (maximum 2500 words) detailing your clinical work with one client seen for at least four sessions. See Professional Practice Guidelines for further information on preparing case reports. You will need to submit your case reports via email to the course convenor (or advised otherwise) as one pdf

Verbal presentation

Assessment

You will be required to do a verbal presentation on one neuropsychology or psychometric assessment client case completed by you. The presentation should include a description of the presenting issues, relevant background, description and interpretation of assessments results, assessment summary and conclusions. Further information can be found in the Professional Practice Guidelines document. You will be rostered to present at the weekly neuro/psychometric meetings and feedback is typically given through a marked rubric.

All assessments use competency-based standards. You must receive satisfactory on all assessment items to pass the course.

You are required to:

- Comply with the University's conditions of enrolment.
- Act responsibly, ethically, safely and with integrity.
- Observe standards of equity and respect in dealing with every member of the UNSW community.
- Engage in lawful behaviour.
- Use and care for University resources in a responsible and appropriate manner.
- Maintain the University's reputation and good standing.

For more information, visit the [UNSW Student Code of Conduct Website](#).

Referencing

Referencing is a way of acknowledging the sources of information that you use to research your assignments. You need to provide a reference whenever you draw on someone else's words, ideas or research. Not referencing other people's work can constitute plagiarism. Further information about referencing styles can be located at <https://student.unsw.edu.au/referencing>

Academic integrity is fundamental to success at university. Academic integrity can be defined as a commitment to six fundamental values in academic pursuits: honesty, trust, fairness, respect, responsibility and courage. At UNSW, this means that your work must be your own, and others' ideas should be appropriately acknowledged. If you don't follow these rules, plagiarism may be detected in your work.

Further information about academic integrity, plagiarism and the use of AI in assessments can be located at:

- The [Current Students site](#),
- The [ELISE training site](#), and
- The [Use of AI for assessments](#) site.

The Student Conduct and Integrity Unit provides further resources to assist you to understand your conduct obligations as a student: <https://student.unsw.edu.au/conduct>

Submission

Submission

UNSW has a standard late submission penalty of:

- 5% per day,
- for all assessments where a penalty applies,
- capped at five days (120 hours) from the assessment deadline, after which a student cannot submit an assessment, and
- no permitted variation.

Students are expected to manage their time to meet deadlines and to request extensions as early as possible before the deadline.

lie Si t@ o s on n

If circumstances prevent you from attending/completing an assessment task, you must officially apply for special consideration, usually within 3 days of the sitting date/due date. You can apply by logging onto myUNSW and following the link in the My Student Profile Tab. Medical documentation or other documentation explaining your absence must
